6 Discussion/Possible Action (Business)

A For Possible Action: Approval of the Board of Supervisors meeting minutes for March 19, 2019. 4

B For Possible Action: Approval of the NTCD financial report for February 2019 8
As of 2/28/19, the District's Fund balance was \$120,350. This represents the District's available spendable resources, or assets less liabilities. February had a surplus of \$8,544. Washoe County's \$15,000 grant came through this month; this was the reason for the surplus. A new addition of Quickbooks was bought costing the District \$1,475. There was additional general fund spending due to lack of grant funded work in February. There was no rent payment this month due to construction being done on the building. This was the District's eight month of the fiscal year.

C For Possible Action: Approval of the NTCD financial report for March 2019 14
As of 3/31/19, the District's Fund balance was \$117,666. This represents the District's available spendable resources, or assets less liabilities. March had deficit of \$2,684. This month there was additional general fund spending due to lack of grant funded work. There was no rent payment this month due to construction being done on the building. This was the District's ninth month of the fiscal year.

D For Possible Action: Approval of the NTCD financial report for April 2019 20
As of 4/30/19, the District's Fund balance was \$118,176. This represents the District's available spendable resources, or assets less liabilities. April had a surplus of \$510. This month included the \$2,189 quarterly POOL/PACT payment. The District had project work to keep the staff busy and therefore had reduced general fund spending. There were also large vacations taken by staff members that reduced the uncompensated absences liability. This was the District's tenth month of the fiscal year.

E For Possible Action: Approval of the Nevada Tahoe Conservation District's Proposed Budget and Work Plan 26
The District has developed its work plan and proposed budget for Fiscal Year 2020. This will be submitted to the Nevada Association of Conservations Districts.

NTCD ANNUAL WORKPLAN FY 2020

Prepared: May 1, 2019

INTRODUCTION

The Nevada Tahoe Conservation District (NTCD) is part of approximately 3,000 Conservation Districts functioning in all 50 States and U.S. Territories. Conservation Districts are sub-divisions of State government and are unique locally led conservation agencies with our roots dating back to the dust bowl era. Districts provide natural resource and conservation practices management and technical assistance to land occupiers (owners, renters, and producers) as well as work cooperatively with Federal, State, and Local governments in the delivery of conservation programs.

The Nevada Tahoe Conservation District is one of 28 Conservation Districts functioning under the auspices of Nevada Revised Statute, Chapter 548. The District is a Governmental Subdivision of the State of Nevada and a public body corporate created in 1976. The District encompasses all of the land in the Lake Tahoe Basin residing in the State of Nevada including portions of Douglas and Washoe Counties and the Carson City Rural Area. In addition, the District has a formal partnering relationship with our California counterpart, the Tahoe Resource Conservation District.

The Nevada Tahoe Conservation District is Nevada Lake Tahoe's local conservation agency and source for technical assistance. The District is a non-regulatory and grant funded agency that works closely with its Federal, State, and Local partners to deliver conservation programs to the Nevada Lake Tahoe Community. The District is guided by a Board of Supervisors made up of elected and appointed community leaders. The Board of Supervisors provides direction to the District's full time staff in carrying out the District's mission statement, vision, and guiding principals. As described in our mission statement, the District seeks to provide its constituents with superior technical assistance, educational resources, and conservation leadership with the goal of protecting Lake Tahoe's natural resources.

10. Work on possible funding to continue community-based urban agriculture in Lake Tahoe's south shore.

MONITORING FOCUS

1. Develop proposals to answer Nevada TMDL quality questions and inform future EIP water quality/erosion control projects for Nevada implementers and funders. Submit to appropriate funders including NDEP, NDSL, BOR, and USFS.
2. Monitor the water quality associated with the Rosewood Creek Area A restoration and the Continuation Project downstream.
3. Work with jurisdictions to register catchments to gain clarity credits to meet the TMDL.
4. Conduct Nearshore Human Health water quality monitoring for the Tahoe Regional Planning Agency.
5. Assist local jurisdictions with BMP and Road RAM (Rapid Assessment Methodologies) in order to comply with regulations and requirements of their TMDL needs.

PUBLIC OUTREACH FOCUS

Public Outreach is extremely important to the District's ability to engage and inform our outreach stakeholder constituency in Nevada Lake Tahoe consisting of Regulators, Funders, Implementers, Property Owners, General Improvement Districts (GIDs) and Homeowner Associations (HOAs). All of our staff and programs are responsible for outreach, including the four main functions: Advocacy, Outreach, and Environmental Policy. This year we plan to collaborate with the Tahoe Resource Conservation District to expand our outreach efforts.

AGREEMENT SUMMARY

Environmental Protection Agency Community Watershed Planning Grant

NTCD Program:

N/A

Contractual Parties:

Nevada Tahoe Conservation District; Environmental Protection Agency

Contract Amount:

\$150,000

Effective Dates:

June 1, 2019-December 31, 2021

Project Summary:

The Environmental Protection Agency (EPA) and the Nevada Tahoe Conservation District (NTCD) will collaborate to develop and implement Lake Tahoe Basin community-based watershed strategies with private landowners in coordination with the public agencies responsible for stormwater water management. This funding will also enable NTCD to conduct riparian restoration and fuels reduction on private parcels in coordination with fire protection districts. The purpose of the project is to assist private property owners, commercial businesses, and local jurisdictions with Total Maximum Daily Load (TMDL) implementation and forest health improvement through a community-based watershed approach. The intent is to focus the community on implementation and maintenance of individual and merged BMPs for protection and restoration of water quality, as well as implementation planning for riparian restoration and forest health improvement on private parcels. Through an integrated strategy for community outreach, education and information sharing, the project will increase the communities' knowledge of restoration objectives, opportunities for improving environmental stewardship, and continuation of the BMP retrofit program. This project will connect the private and public works EIP projects while being adapted to local community priorities in Nevada. Emphasis will be placed on coordinating with and promoting Area Plan development consistent with the 2012 Regional Plan Update as well as the Tahoe Regional Planning Agency's targeted list for Douglas and Washoe Counties. Deliverables include Area Watershed Plans for 2 watersheds and forest health and restoration plans for up to 5 miles of creek or 5 acres of watershed.
